

Step 1 — Understanding ArtConnect and Defining the Functional Scope

3. Functional Analysis of Each Screen

3.1 Discover

The Discover screen presents featured content to the user. It highlights:

- Featured exhibitions
- Upcoming workshops

Users can quickly discover important events and current artistic activities on the platform.

3.2 Artists

The Artists screen displays a table with the following attributes:

- Name
- City
- Email
- Birth Year

This screen also includes:

- Search bar
- Filter dropdown
- Search button
- Reset button

This allows users to:

- Browse artists
- Search artists
- Filter artists
- View artist information

3.3 Artworks

The Artworks screen displays a table with:

- Title
- Artist
- Type
- Price

- Status

This allows users to:

- Browse artworks
- View artwork details
- Identify associated artists
- Check artwork type and status

3.4 Galleries

The Galleries screen displays:

- Gallery name
- Location
- Rating

This allows users to:

- Browse galleries
- View locations
- Compare galleries based on ratings

3.5 Exhibitions

The Exhibitions screen displays:

- Title
- Gallery
- Start Date
- Theme

This allows users to:

- Browse exhibitions
- View themes
- Identify locations
- View start dates

3.6 Workshops

The Workshops screen displays:

- Title
- Instructor
- Date
- Price
- Level

This allows users to:

- Browse workshops
- View instructor
- Check date and price
- Identify difficulty level

3.7 Community

The Community screen displays:

- Name
- Email
- City

This allows users to:

- Browse members
- View contact details
- Identify locations

4. Main Features Identified from the Interface

- Discover featured exhibitions
- Discover upcoming workshops
- Browse artists
- Search and filter artists
- View artist information
- Browse artworks and view details
- Browse galleries and view ratings
- Browse exhibitions and view details
- Browse workshops and view details
- Browse community members

5. User Roles / Actors

5.1 Community Member / Visitor

Represents a user exploring the platform.

- Browse artists, artworks, galleries
- Browse exhibitions and workshops
- View community members
- Discover content

5.2 Organizer / Administrator

Responsible for managing platform content.

- Manage artists
- Manage artworks
- Manage galleries
- Manage exhibitions
- Manage workshops
- Manage community data

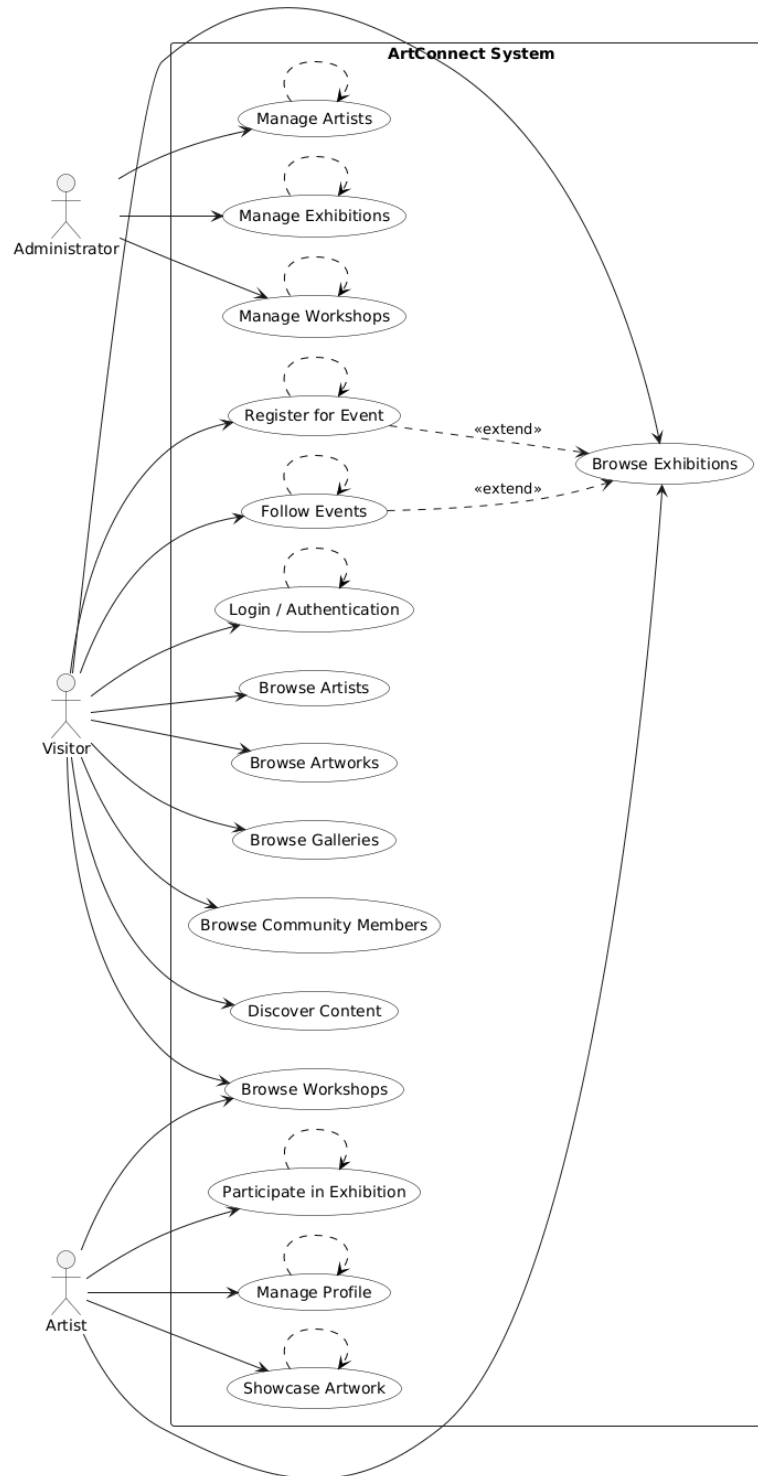

5.3 Artist

Represents creators on the platform.

- Maintain artist profile
- Showcase artworks
- Participate in exhibitions
- Participate in workshops

Future Features

- Register for events
- Follow events
- User authentication (login)
- Manage profile
- Administrative management features

Legend
